London, U.K. — c.chang25@imperial.ac.uk — [Linkedin](#) — [Github](#) — [Webpage](#) — [Google Scholar](#)

RESEARCH INTERESTS

Decision-making and machine learning, with a primary focus on efficiency, interpretability, and accuracy.

EDUCATION

PhD Student in Mathematics Research

Sep. 2025 – Expected Sep. 2029

College of Natural Science, Imperial College London (ICL)

London, UK

- Research: Foundation models for decision-making; supervised by Dr. Kelly W. Zhang.
- Fully founded by **Roth Scholarship**, Department of Mathematics, ICL

MSc in Applied Statistics

Aug. 2023 – Dec. 2024

University of Michigan, Ann Arbor (UMICH)

MI, U.S.A.

- Fully sponsored by **Government Scholarship for Studying Abroad**, Ministry of Education, Taiwan
- Conducted research in Bayesian optimization at UM data science lab, advised by Prof. Raed Al Kontar.

BSc in Mathematics

Sep. 2019 – Jun. 2023

College of Science, National Tsing Hua University (NTHU)

Hsinchu, Taiwan

- Data Science Certificate (Complete 6 master-level statistics courses)
- Awarded **Special Education Student Award**, 2020, 2021, and 2022
- Received **Adjunct Research Grant**, 2022-2023, Institute of Statistical Science, Academia Sinica

PUBLICATIONS

- [1] **Bootstrap Aggregation for Regression Problems via Generalized Least Squares**
C.-Y. Chang and M.-C. Chang. *Statistics and Computing*, 2026.
- [2] **Bandit Simulation for Average Reward Inference**
C.-Y. Chang*, S. Prahara*, K. Khamaru, and K. W. Zhang. *arXiv preprint*, arXiv:2606.00913, 2026.
- [3] **Accumulated Aggregated D-Optimal Designs for Estimating Main Effects in Black-Box Models**
C.-Y. Chang and M.-C. Chang. *arXiv preprint*, arXiv:2510.08465, 2026.
- [4] **Collaborative Contextual Bayesian Optimization** C.-Y. Chang, T. Gao, Q. Chen, C. Okwudire, D. Fenning, N. Dasgupta, W. Lu, and R. A. Kontar. *arXiv preprint*, arXiv:2604.18912, 2026.
- [5] **LLINBO: Trustworthy LLM-in-the-Loop Bayesian Optimization**
C.-Y. Chang, M. Azvar, C. Okwudire, and R. A. Kontar. *arXiv preprint*, arXiv:2505.14756, 2025.

WORKING EXPERIENCE

Institute of Statistical Science, Academia Sinica

Taipei, Taiwan

Research Assistant, Supervised by Dr. Ming-Chung Chang Mar. 2022 – Aug. 2023, and Jan. 2025 – Aug. 2025

- Conducted research on main-effect estimation for black-box models.
- Developed methods to improve predictive performance in multi-agent systems.

Visiting Scholar

May 2024 – Aug. 2024, and Sep. 2026 – Oct. 2026

SKILLS

- Languages: English (C1, fluent), Chinese (native)
- Programming: Python, R (professional), SQL, Power BI (entry-level)

TEACHING AND SERVICE

- **Teaching Assistant, Learning Agents (Master level)** ICL, Fall 2025, Fall 2026
- **Teaching Assistant, Calculus I and II** NTHU, 2022–2023
- **Conference Reviewer:** AISTATS 2026 (3 papers), UAI 2026 (6 papers), and NeurIPS 2026 (3 papers).
